

METAL FINISHES & PATINAS

Our metal finishes and patinas are skillfully created and applied by our experienced craftspeople to the highest possible standards. Colour and texture variation is inherent in the creation of hand finished patinas; and once installed, touch, time and environment should lead to gradual wear and oxidization, lending character and elegance.

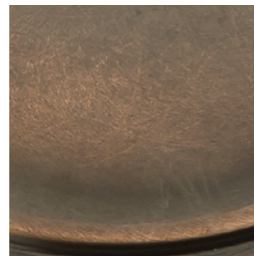

Whilst the images provide a good representation of our finishes, to assist the specification process, metal swatches and actual product samples may be made available upon request.
